Give yourself the future you envision.

As Americans live longer the need for reliable retirement income grows. Many retirees are now outliving their savings, placing themselves in difficult situations where they may not be able to enjoy their twilight years. You have been working hard for years - give yourself the future you envision.

The Guaranteed Income Annuity can help protect your future from risk while also growing your retirement money. This innovative annuity also can provide guaranteed income for the rest of your life or a legacy for your beneficiaries.

*This is the product name filed under the compact and individual states.

The Guaranteed Income Annuity was created to help you achieve:

RETIREMENT PROTECTION WITH MINIMAL RISK

Imagine putting money aside for retirement for your entire working life, only for the market to hit a slump and severely impact that accumulation. With a volatile market, years of hard work can suddenly shrink, leaving you far fewer retirement dollars than you planned. Once you have accumulated those retirement funds, wouldn't you like to better protect that money?

GUARANTEED INCOME FOR LIFE

Most Americans begin retirement around their mid to late 60s and need their retirement savings to last for the rest of their lives, which could be 20-30 years after retirement.

PROVIDING FOR YOUR LOVED ONES

Many of us are not only concerned about providing for ourselves, but for our families as well. To be able to do so may require more money than what we need for retirement. Wouldn't you want an annuity designed to help make this possible?

Let the Guaranteed Income Annuity provide greater financial reassurance

As we near retirement it is important to acknowledge that a retirement savings plan can become more vulnerable. A big downturn in the market could result in the loss of a significant part of your retirement nest egg which will then increase the chance that you will outlive your retirement savings. A big downturn in the market will also reduce the balance of the amount you want to leave behind to your loved ones.

Consider the following hypothetical comparison between Ana, Ben, and Cara. They are all nearing retirement at the age of 65 with a nest egg of \$250,000 each. They have each elected different financial products for their retirement monies during this critical time in their lives. For purposes of this illustration let's consider what would have happened during a financial crisis and how it could impact Ana, Ben, and Cara differently.

Interest Crediting

Guaranteed Income Annuity and LIBOR

Fixed annuities utilize a fixed interest rate for the guarantee period. However, the Guaranteed Income Annuity takes it a step further.

This annuity's interest rate is calculated by utilizing a participation rate of the (USD) LIBOR 3 month tenure. This enables you to receive a higher interest rate if rates increase during your contract's guarantee period while still having the safety net of a guaranteed minimum interest rate.

What is LIBOR?

LIBOR is a benchmark rate used throughout the world, LIBOR is used by many of the world's leading banks to know how much they should charge one another for loans.

Thanks to LIBOR, Sentinel Security Life is able to offer our clients the potential to earn a rewarding return in a rising rate environment. Typically as general interest rates increase, so does LIBOR, and vice versa.

In order to learn more about LIBOR and how it applies to the Guaranteed Income Annuity, see our LIBOR brochure or visit www.sslco.com/libor.

Additional First Year Premiums

This is a modified single premium annuity, meaning that you are able to add additional premiums during the first 12 months of the contract. On top of that, the additional premiums will also earn a bonus!

Premium Bonus of Up to 10%

We understand that making sure you have enough funds for retirement is important, so with this in mind we have added a bonus to this annuity. To help you get started, we will credit either a premium bonus or income bonus, depending on the rider selected*. See the table below for reference of the bonus potential.

Required Minimum Distribution Waiver

Once you reach age 70 1/2, the federal government requires you to withdraw a percentage of your taxable income from any qualified retirement accounts, including annuities purchased with pre-tax dollars. To help you satisfy this requirement, during the first policy year the Required Minimum Distribution (RMD) may be withdrawn and no Market Value Adjustment, Surrender Charge, or loss of non-vested premium bonus will apply.

After the first policy year, the total amount that may be withdrawn as free withdrawals is the greater of the RMD or 10% of the Initial Purchase Premium and Subsequent Purchase Premiums.

Terminal Illness and Nursing Home Waiver

There may be certain life-altering situations where you need access to all of your money, such as being diagnosed with a terminal illness or confined to a nursing home. If this does happen, you can make a full surrender or partial withdrawal with no Market Value Adjustment, Surrender Charge, or loss of any applicable non-vested premium bonus under certain conditions*.

**See the disclaimer page for more information.*

10% Annual Withdrawal

Sometimes you need access to some of your money earlier than you were expecting. Some annuities do not offer free early withdrawals, but the Guaranteed Income Annuity allows you to withdraw up to 10% of the Purchase Premium after the first contract year*. If the unexpected occurs, you will have access to your funds.

DISCLAIMERS AND DEFINITIONS

Annuity Guarantees - Annuity guarantees rely on the financial strength and claims-paying ability of Sentinel Security Life Insurance Company.

Annuity Differences - Some annuities offer lifetime income as a part of the base contract, and others may offer riders for a charge that provides that benefit. If lifetime income is elected through annuitization on the base contract, the elected rider will terminate, including any benefits provided by the rider.

Penalty Free Withdrawal - Up to 10% of the purchase premium may be withdrawn without any surrender charges, market value adjustment, or forfeiture of any applicable premium bonus starting in year two. The Required Minimum Distribution may be withdrawn without any surrender charges, market value adjustment, or forfeiture of any applicable premium bonus starting in year one. Any distribution may impact future Guaranteed Lifetime Withdrawal Benefit payments.

Market Value Adjustments - The Market Value Adjustment (MVA) is specified in the contract. The MVA expires at the end of the Surrender Charge Period.

Terminal Illness Waiver - Terminal illness is defined as any medical condition which a physician certifies that the policy owner's expected life span is twelve months or less. Proof of the terminal illness is required by a certified licensed physician that is not the owner, annuitant, or a family member to the owner or annuitant. The owner cannot be terminally ill during the waiting period. There is a waiting period of either one or two years, depending on which state the contract is issued.

Nursing Home Waiver - Must be confined to a nursing home for a period of at least 90 consecutive days. There is a waiting period of either one or two years, depending on the state contract is issued. If the owner is confined to a nursing home during the waiting period, this benefit would not be available in certain states.

Home Healthcare Increase Benefit - At time of issue, owner(s) must be able to do all 6 ADLs, which are:

- Bathing
- Transferring
- Contingence
- Dressing
- Toileting
- Eating

To qualify for the benefit, must have a doctor's statement that any owner is unable to perform 2 out of 6 ADLs. There is a waiting period of 2 years after issue before the benefit can be requested. Benefit can only be applied once. Increase is available for up to 5 years. Account value must be greater than zero. See the Accumulation Benefit Rider & Guaranteed Lifetime Withdrawal Benefit Rider Inserts for more information.

If you elect the Accumulation Benefit Rider, there is no fee.

Renewal Periods - During any Renewal Roll-up Period, the Income Account Value Interest Rate, Legacy Benefit Base Interest Rate, Benefit Base Interest Rates, and rider fees may change.

Sentinel Security Life Insurance Company

The Sentinel story started 70 years ago in 1948. A group of passionate Utah funeral directors saw many families in need of an insurance product designed to help pay funeral costs. To help meet this need, they came together and created Sentinel Mutual Insurance Company. At last families were able to receive an affordable life insurance policy designed to pay for the final expenses of a loved one.

As the years went by a few name changes took place (going from Sentinel Mutual Insurance Company to Sentinel Insurance Company in 1954 to Sentinel Security Life Insurance Company in 1957).

In more recent years Sentinel decided to expand its product offerings beyond final expense. In 2009, the company rolled out a Medicare Supplement Insurance product to help pay the gaps not covered by Medicare. This was followed by the development of multiple innovative annuity products (Personal Choice Annuity in 2011, Summit Bonus Index in 2013, Personal Choice Plus in 2017, and Guaranteed Income Annuity in 2018). With consistent and solid growth, Sentinel remains well-positioned to continue creating and rolling out new innovative products to better serve our client base.

As we celebrate our 70th anniversary this year, we look back at our history of service with pride and excitement for the future. We invite you to become part of our story as we work to provide peace of mind to families throughout the country.
